Arwil Martin Paraiso *Frontend Developer | UI/UX Designer*

Los Baños, Laguna arwilmartinparaiso.tech@gmail.com 09657839801 Portfolio: nezra.netlify.app
github.com/NezraDev

Summary

Computer Science student and frontend developer specializing in responsive, accessible, and user-centered interfaces. Experienced in transforming stakeholder requirements and high-fidelity designs into maintainable web applications using React, TypeScript, Next.js, Tailwind CSS, and Figma. Contributed to professional, client, and academic projects involving municipal systems, digital publications, interactive mapping, and flood-risk visualization.

Technical Skills

Frontend: HTML5, CSS3, JavaScript, TypeScript, React, React Native, Next.js, Inertia.js, Tailwind CSS
UI/UX: Figma, Wireframing, Prototyping, Responsive Design, Accessibility, Design Systems, Canva
Backend: Node.js, PHP, Laravel, Django, FastAPI
Databases: MySQL, SQLite
Mapping: MapLibre GL JS
Tools and Practices: Git, GitHub, Docker, Visual Studio Code, Technical SEO, Server-Side Validation, Automated Testing

Professional Experience

DMSA Pest Control Services, *Digital Media Operator | Website Developer* 08/2026 – Present | Los Baños, Laguna
- Developed and deployed a seven-page pest-control website using Next.js, React, TypeScript, and Tailwind CSS.
- Built interactive treatment maps, project galleries, service pages, and quotation workflows to centralize the company's online services and customer information.
- Implemented responsive design, accessibility, technical SEO, form validation, email delivery through Resend, and security-focused features.

Moonton Student Leader PH | Moonton Games, *Moonton Student Leader | Frontend Developer* 08/2026 – Present | Remote
- Collaborate in a 10-person development team to translate high-fidelity designs into reusable React, Inertia.js, and Tailwind CSS components.
- Develop consistent and accessible interfaces for administrative workflows across desktop and mobile layouts.

LSPU - LB | Extension Program, *Frontend Developer | UI/UX Designer* 11/2024 – 01/2026 | Los Baños, Laguna
Digital Survey Management System
- Built a digital survey interface using React and Tailwind CSS as part of a 10-member team.
- Helped digitize paper-based processes across eight departments and 28 offices, reducing processing time by approximately 60%.

Municipal Resident Management System – Barangay Batong Malake
- Led UI/UX design and frontend implementation for a municipal dashboard managing more than 10,000 resident records.
- Worked with municipal stakeholders to convert Excel-based processes into a centralized interface, improving data-retrieval efficiency by an estimated 40–60%.

Selected Projects

CentrisAI — Central Bangkok Flood Forecasting & Monitoring System, *Frontend Developer | UI/UX Designer* 01/2026 – 09/2026
Undergraduate Thesis | React, Tailwind CSS, FastAPI, MapLibre GL JS, Git, LightGBM
- Led frontend development and implemented the dashboard interface for a LightGBM-based urban flood-depth forecasting system.
- Integrated spatial flood predictions with rainfall, water-level, and flow data to support historical flood-risk visualization across Central Bangkok.
- Designed an interactive mapping experience for presenting multiple forecast horizons and spatial flood estimates in a clear, accessible format.

Singapore University of Social Sciences, *Frontend Developer | UI/UX Designer* 01/2026 – 04/2026
Client Project | React, Tailwind CSS, PHP, Laravel
- Built a responsive digital magazine interface designed to support more than 10,000 users and a collection of over 100 magazines.
- Implemented downloadable and flipbook viewing experiences to improve access to digital publications across screen sizes.

Education

Bachelor of Science in Computer Science, *Laguna State Polytechnic University - LB Campus* 08/2024 – Present | Los Baños, Laguna
Dean's Lister | GWA: 1.23

Computer Systems Servicing NC II - Trainee 07/2026 – 08/2026 | Calauan, Laguna
Philippine Technical Education and Skills Development Authority

Leadership and Community Involvement

Legion of Lures Esports, *President* 08/2025 – 07/2026 | Los Baños, Laguna
- Led a student esports organization that promoted a balance between gaming and academics within the LSPU–LB community.
- Secured partnerships with HyperX Philippines, Mountain Dew, Qanba, and Moonton.
- Organized 10 onsite esports events with a combined participant and audience reach of more than 10,000.

Moonton Student Leader Philippines, *Student Leader of LSPU-LB* 07/2025 – 07/2026 | Los Baños, Laguna
- Hosted and facilitated monthly community activities involving a combined total of more than 5,000 student participants throughout the term.
